

Percentage & CGPA Calculator (C++)

A simple console-based C++ project that calculates:

- Percentage
- CGPA
- Grade Points
- Academic Performance

Features

- Multiple subject support
- Credit-based CGPA calculation
- Automatic grade point assignment
- Performance evaluation
- Clean and user-friendly interface

Grade Point Mapping

Marks	Grade Point
90-100	10
75-89	9
65-74	8
55-64	7
50-54	6
45-49	5
40-44	4
Below 40	0

Technologies Used

- C++
- Arrays
- Loops
- Conditional Statements
- Functions from `<iomanip>`

Future Improvements

- SGPA Calculation
- Result Sheet Generation
- File Handling
- Student Database
- GPA Scale Customization
